

OPENHIVEbridge™

Management information system integration

Part of
OPENHIVEmle™

You've got 1000-plus learners in your school: you do your best to get to know as many as you can, but it's a tall order. There are concerns about the attendance of some pupils, you're getting reports of bad behaviour amongst a particular friendship group – and you've still got to sort out the timetable for next term...

OPENHIVEbridge makes intelligent use of your MIS data

Highly sophisticated and intelligent in design, OPENHIVEbridge integrates with all major MIS systems, extracting identity, timetable, attendance, behaviour, achievement, learner images, guardian relationships and more – surfacing this data appropriately whilst respecting privacy, within other teaching and learning applications.

Working your MIS data harder, enabling joined-up use of information across all aspects of management, teaching and learning, OPENHIVEbridge automatically populates timetable information into individual calendars, shapes your school portal navigation and access rights, and surfaces attendance, assessment and

behaviour information all within your virtual learning environment and parental reporting application.

Working in real time, updates from the MIS flow automatically into OPENHIVElearning, OPENHIVEportal, OPENHIVEmail, OPENHIVElive, OPENHIVEinsight. But we don't stop here – OPENHIVEbridge also integrates your third party applications and external content.

Managed securely and automatically, OPENHIVEbridge crucially reduces the burden of administration, setting you and your teaching staff free.

Benefits

- Intelligent use of MIS data informs other teaching and learning services and facilitates 'joined up' thinking.
- A dynamic, automated service that ensures everyone has access to the same information for proactive management and teaching decisions.
- More informed teaching and learning decisions can be made, enhancing individual learner support and guidance.
- A secure, standards-based method of sharing data using Schools Interoperability Framework (SIF) certified applications
 - your school can significantly reduce redundant and duplicate data entry, freeing teaching staff of administration duties.
- MIS changes are fully synchronized with OPENHIVEbridge following an agreed schedule – automatically updating timetable and class data within your virtual learning environment, portal and online reporting application.
- Complete control and flexibility of scheduling – data extracts can be scheduled and different data can be obtained at different frequencies eg update lesson attendance data hourly, daily or once a week.
- Extract full sets of data from your local MIS to provision and manage accounts and data about your users.
- Reduces the burden of administration – teaching staff can more effectively utilise their time for the benefit of learners, saving valuable time and money across your school.

So what is OPENHIVEmle?

OPENHIVEmle is one of the strands of our modular OPENHIVEeducation portfolio. OPENHIVEeducation comprises OPENHIVEmle, OPENHIVEisp and OPENHIVEict - a complete solution for all your school's ICT needs.

OPENHIVEmle is a fully managed learning environment that uniquely places personalised learning and improved educational outcomes at the heart of your school's ICT provision.

Totally integrated, OPENHIVEmle brings all your ICT services together, from MIS to email, portal, VLE and online reporting. Technical

issues, such as identity management and Single Sign-On, are taken care of, enabling users to enjoy the full benefits of an intuitive, engaging and fun learning experience.

OPENHIVEmle is ideal for primary and secondary schools, academies, Free Schools, clusters, federations and local authorities.

OPENHIVEmle provides the ultimate in choice and flexibility. Choose just the modules you need or use them all collectively for a truly integrated learning platform that will meet and exceed the aspirations of your teachers, support staff, learners and parents.
