

OPENHIVEiD™

Identity management

Part of
OPENHIVEmle

It's the first day of term and you have hundreds of learners needing access to multiple ICT systems – school network, email, portal and VLE. Ensuring they all have access to the appropriate experience in the right applications and are assigned to their relevant classes and groups can be a nightmare. But through a single link with your school MIS, everything works beautifully!

It's so much easier using OPENHIVEiD

OPENHIVEiD controls all of your services: use it to provision, identify and manage all of your users' access requirements from your management information system (MIS). Today, the technology behind OPENHIVEiD provisions and manages approximately 3/4 million users across more than 10 local authorities. Learners, teachers, parents and governors all have a single identity, even if they have multiple roles – OPENHIVEiD ensures they can access all relevant ICT services using one single user account and can even manage identities across different schools!

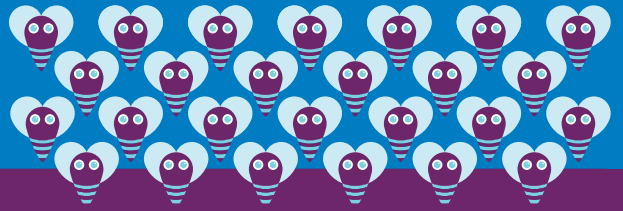

With a direct link to your MIS through OPENHIVEbridge, OPENHIVEiD is dynamic and updates instantly when user information is changed – whether it's a name change, moving up a year or transferring to multiple learning establishments. If a change means a user requires access to a different service or different user experience, it happens automatically.

OPENHIVEiD can provision your email, portal, virtual learning environment (VLE), online reporting, filtered instant messaging, Microsoft Live@edu and even your school's network Active Directory – giving you just one single user account to manage. In conjunction with OPENHIVEpass it also ensures Single Sign-On access is enabled to all applications and third party content. And yes, it's SIF enabled too.

Parents are catered for through a flexible yet secure provisioning and validation process, linking them to their children across multiple schools through one single account.

OPENHIVEiD cleverly removes many ICT headaches, giving you access to a truly integrated service. With reduced time spent on entering and exporting data OPENHIVEiD saves time and ensures that your data is accurate and up-to-date.

Benefits

- Access to a completely integrated service via a single identity and account.
- Simplified user provisioning and management for multiple services, including roles, groups, schools and access control.
- Integrated with your MIS, OPENHIVEiD understands your school's timetables, classes and informs user access across all OPENHIVE services, updating user information as changes occur.
- Real time provisioning for your VLE, email, portal, parental reporting and filtered instant messaging – even provisioning Microsoft Live@edu.
- Automatic key stage rollover – removing first day of term issues.
- Fully automated process reduces administrative and technical support demands, generating greater cost efficiencies. User self-service tasks include password resets and parental registration and validation.
- Multi-role and school aware through a single identity – just like in the real world! OPENHIVEiD is user-friendly service that improves user satisfaction and productivity.
- OPENHIVEiD Web 2.0 interface enables interaction with OPENHIVEiD to manage your users easily.
- Fully compliant with the Schools Interoperability Framework subscribe and publishing standards.

So what is OPENHIVEmle?

OPENHIVEmle is one of the strands of our modular OPENHIVEeducation portfolio. OPENHIVEeducation comprises OPENHIVEmle, OPENHIVEisp and OPENHIVEict - a complete solution for all your school's ICT needs.

OPENHIVEmle is a fully managed learning environment that uniquely places personalised learning and improved educational outcomes at the heart of your school's ICT provision.

Totally integrated, OPENHIVEmle brings all your ICT services together, from MIS to email, portal, VLE and online reporting. Technical

issues, such as identity management and Single Sign-On, are taken care of, enabling users to enjoy the full benefits of an intuitive, engaging and fun learning experience.

OPENHIVEmle is ideal for primary and secondary schools, academies, Free Schools, clusters, federations and local authorities.

OPENHIVEmle provides the ultimate in choice and flexibility. Choose just the modules you need or use them all collectively for a truly integrated learning platform that will meet and exceed the aspirations of your teachers, support staff, learners and parents.
