

OPENHIVElearning™

Virtual learning environment

Part of
OPENHIVEmle™

Your pupils are more engaged than ever with learning now they're working in a new and exciting virtual learning environment – and your colleagues love using it too! Motivation is at an all time high and it's showing in improved levels of attainment right across the school.

OPENHIVElearning – a VLE that's fresh, exciting and engaging

OPENHIVElearning is unique. It takes virtual learning environments to the next level and is fully integrated with your management information system (MIS) – as you would expect. What's different about OPENHIVElearning is the powerful 'assessment for learning' toolkit that helps personalise the learning experience.

Unlike a traditional, linear web experience, OPENHIVElearning features a rich and engaging graphical user interface that provides a fun and exciting environment in which to learn.

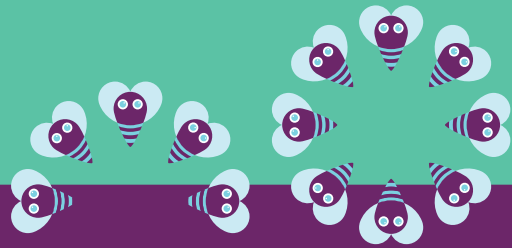

Totally user friendly, OPENHIVElearning enables learners to view and access their coursework, quizzes and resources online

from any location. Because of the intelligence OPENHIVEiD brings to the service teachers are able to provide formative and summative assessment based on additional factors such as attendance and behaviour.

Behind the scenes we've solved complex technical issues such as Single Sign-On and identity management which allows all your users, for the first time, to simply log on once and enjoy e-learning.

With OPENHIVElearning, your school can enjoy a more collaborative, flexible method of engaging with learners, delivering a more enjoyable, dynamic experience for them and your teaching staff. Together we can positively encourage better performance.

Benefits

- Improves communication within and outside the school, with parents, governors and the community.
- Fully integrated with OPENHIVEportal (based on Microsoft SharePoint), providing one environment for all your teaching needs. Sign in once, access everything.
- Teachers can save time by creating and sharing materials online, building a library of quality course resources, such as quizzes and surveys. Simple templates for lesson planning make course building easy.
- Using the reports and diagnostics tools, teachers can view MIS and VLE data to build up learner profiles, review achievements, track behaviour and attendance, assess progress and give feedback. Instant access and easy analysis reduces administration and sets teachers free to teach.
- Personalised individual online environments encourage deeper engagement. Users can customise their personal interface colours, choose desktop images, develop custom marking schemes, create and save learner data reports, personalise activities for individuals or groups, set targets from the National Strategies Framework or create specific targets, record comments and progress.
- Individual learner progress can be monitored, measured and assessed to enable more personalised learning that suits individual learning styles. Learner/teacher communication tools increase collaboration and learner support providing further opportunities for enhanced engagement.
- Learners can track their progress across subjects and against their peers.

So what is OPENHIVEmle?

OPENHIVEmle is one of the strands of our modular OPENHIVEeducation portfolio. OPENHIVEeducation comprises OPENHIVEmle, OPENHIVEisp and OPENHIVEict - a complete solution for all your school's ICT needs.

OPENHIVEmle is a fully managed learning environment that uniquely places personalised learning and improved educational outcomes at the heart of your school's ICT provision.

Totally integrated, OPENHIVEmle brings all your ICT services together, from MIS to email, portal, VLE and online reporting. Technical

issues, such as identity management and Single Sign-On, are taken care of, enabling users to enjoy the full benefits of an intuitive, engaging and fun learning experience.

OPENHIVEmle is ideal for primary and secondary schools, academies, Free Schools, clusters, federations and local authorities.

OPENHIVEmle provides the ultimate in choice and flexibility. Choose just the modules you need or use them all collectively for a truly integrated learning platform that will meet and exceed the aspirations of your teachers, support staff, learners and parents.
