

# OPENHIVEmail™

## Instant mail access

Part of  
OPENHIVEmle™

**Mr Johnson has been at a Head Teachers' convention for most of the day, but using his smartphone he's been able to check his messages, contribute to a group discussion and schedule several meetings with his colleagues – all in the space of a coffee break**

### OPENHIVEmail is fully integrated with teaching and learning

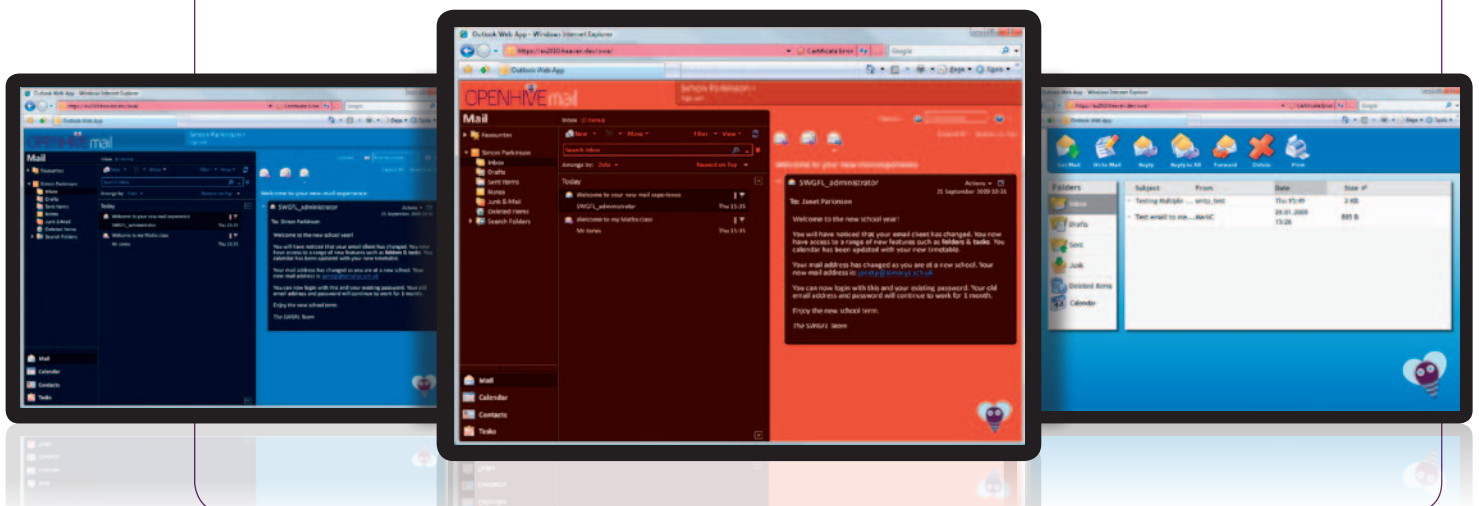

OPENHIVEmail provides enterprise class, filtered messaging based on Microsoft Exchange Enterprise. Seamlessly integrated with all OPENHIVE services, OPENHIVEmail offers the most complete user experience for faster shared communication.

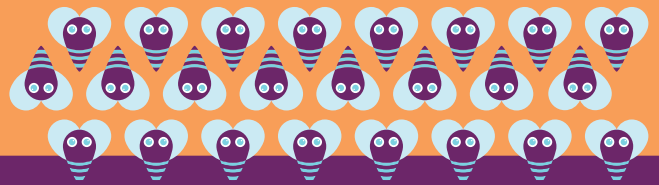

OPENHIVEmail is managed through OPENHIVEiD, giving complete flexibility and control over mail provisioning, address formats, aliases, distribution lists and shared mailboxes. Real time integration with your MIS and other OPENHIVE services places OPENHIVEmail at the centre of all teaching and learning activities. OPENHIVEmail offers the facility to populate calendars with timetable data from your MIS offering true integration across all OPENHIVEservices. When used in conjunction with OPENHIVElearning, our virtual learning environment (VLE), any activities assigned to learners are linked to

their relevant subjects and activities, with the ability to click through to their VLE and access the specific resources they need.

OPENHIVEmail is a truly flexible service and can be accessed by learners and staff at any time of the day, from any location, using any compatible device – whether they are at school or at home, working during the evening or on a weekend, or sat on a bus using a smartphone or other mobile device. For younger learners, OPENHIVEmail also offers an age-appropriate interface that can be easily customised.

Operating within a fully hosted environment, there's no additional hardware, software or management and maintenance costs to worry about. And for absolute peace of mind, OPENHIVEmail is a safe and secure service that automatically scans and filters inappropriate content and spam messages.

## Benefits

- Enterprise class, filtered messaging – enhancing communication within a single school, multi-campus schools, linked schools and LAs.
- A range of flexible, easy access methods, including Outlook and custom learner web mail clients, 24/7 using any mobile device that has a Microsoft Exchange client e.g. Windows, Apple, Blackberry, or Android) – ideal for multi-campus learning and peripatetic teachers.
- Seamlessly integrates with your MIS and other OPENHIVE services, offering a truly integrated teaching and learning experience.
- Deep and intuitive links with OPENHIVElearning helps users to organise, share and manage projects for greater productivity.
- Automatic provisioning through OPENHIVEiD; individual user identities ensure a high level of security at all times.
- Email calendar is pre-populated with each user's MIS timetable, making it quick and easy to use as a personal and enterprise shared diary.
- A global address list provides instant access to contact details for everyone in your school, enabling faster, more timely communication. Groups and distribution lists enables the flexible creation of groups from your MIS data and user attributes for dynamic teamwork and collaboration.
- To do and task lists offer a more organised working life.
- An age-appropriate interface specially designed for primary school use.
- Generous storage quota for learners (250Mb) and staff (500Mb).
- Full integration with OPENHIVElive.
- Overheads and administration costs are reduced through greater efficiency.

## So what is OPENHIVEmle?

OPENHIVEmle is one of the strands of our modular OPENHIVEeducation portfolio. OPENHIVEeducation comprises OPENHIVEmle, OPENHIVEisp and OPENHIVEict - a complete solution for all your school's ICT needs.

OPENHIVEmle is a fully managed learning environment that uniquely places personalised learning and improved educational outcomes at the heart of your school's ICT provision.

Totally integrated, OPENHIVEmle brings all your ICT services together, from MIS to email, portal, VLE and online reporting. Technical

issues, such as identity management and Single Sign-On, are taken care of, enabling users to enjoy the full benefits of an intuitive, engaging and fun learning experience.

OPENHIVEmle is ideal for primary and secondary schools, academies, Free Schools, clusters, federations and local authorities.

OPENHIVEmle provides the ultimate in choice and flexibility. Choose just the modules you need or use them all collectively for a truly integrated learning platform that will meet and exceed the aspirations of your teachers, support staff, learners and parents.
